We Recover Furniture and Do Carpet Laying.

Sagacious Canine Collector.

A southwest London hotel is the scene of action of a very sagacious dog, the Irish terrier, the hostess, the maid, the landlord, the dog's opinion, at least a sufficiently benevolent cast of countenance, will soon after arrival feel his leg being gently rubbed by something soft, and looking down will perceive the dog's expectant eyes fastened on him, while a money box awaits contributions. As soon as he has received a coin Jack proudly bears it off to the counter, where a biscuit awaits him. Unless the biscuit is forthcoming, and one of the kind that meets his approval, Jack will not give up his money. The money thus collected during the last twelve months has amounted to thirty pounds, which has been sent to the West London hospital and other charities.

Motor Horn Gives Bugle Call.

A motor-car horn we recently heard, says Science Settings, has a sound like a bugle, and is pleasant and distinctive. In operation it is like an ordinary bugle horn. Each time the bulb is pressed a piston arrangement moves out and gives a turn to a ratchet wheel at the base of the horn. By changing this device any combination of sounds or calls can be produced. Thus repeated pressure on the bulb will give four-toned calls that may be said to give pleasure instead of nerves to people in the vicinity.

Matrimony is a Risk.

Young couples in Devil Lake, N. D., refuse to get married in that town because they are superstitious about its name. Matrimony is a risk, no matter what town you are married in, says M. J. Hamel.

Lodge Notes And Fraternal Interests

Norwich Eagles Will Have Special Train to State Field Day at New London—Sons of Veterans Gaining Many New Members—Degree of Pocahontas Visited by State Officers.

L'UNION ST. JEAN BAPTISTE D'AMERIQUE.

Lafayette council, No. 307, disposed of a large amount of business at its regular session, at which President Pierre St. Onge presided, on Thursday evening in Foresters' hall. President St. Onge has been named as the delegate from the council to the convention at Manchester, N. H., on Sept. 7 and 8. Peter H. Ethier is the alternate chosen.

DEGREE OF POCAHONTAS.

Schoonah council, No. 11, held its regular meeting Monday evening, Grace Thorpe, Pocahontas, presiding. A large number was present and the regular order of business was carried out. The great Pocahontas, Mrs. Gladwin of Wallingford, and great keeper of records, Miss Maguire of Hartford, made their annual visit to the council. Games was one of the features of the evening which provided quite a little fun and amusement for all. First prize was won by Miss Maggie Ives, and the second by Mrs. Gladwin. At the close a social hour was spent. Ice cream and lady fingers were served by the committee. The making plans to hold a picnic before long. Much interest is being taken by the members and they expect to have several new candidates soon.

MODERN WOODMEN.

Ionie camp, No. 704, at its regular semi-monthly meeting in Pythian hall Thursday evening besides ordinary business received two new brothers into the camp. The initiation was performed in creditable form. Three new applications were received at the regular dress corps, Norwich camp, No. 890, at their new quarters, in Hibernian hall, on Wednesday evening. Initiating an act beginning of the fall and winter season. The camp is planning for an entertainment in the early fall, and arrangements for this are in the hands of the following committee: Saul Aloson (chairman), G. J. Downes, John E. Congdon, J. E. Kimball and W. A. Field.

HEPTASOPHS.

Plans for an outing are being made by Norwich convalescent No. 424, and the members are looking forward to this annual affair with their customary interest. The outing will be a local one, the scene of the outing and the day will be August 12. The Norwich Heptasophs will be taking the following members: Saul Aloson (chairman), G. J. Downes, John E. Congdon, J. E. Kimball and W. A. Field.

ODD FELLOWS.

Shetucket lodge, No. 27, broke the usual monotony of the summer meetings by receiving some new applications on Tuesday evening. Notices of the annual outing of the Odd Fellows at Fairview on the Thames, on Labor day, are expected by the Norwich bodies in a short time.

EAGLES.

The committee of Norwich Aerie No. 347, who are arranging for the part the aerie is to take in the state field day at New London next Thursday have found that there are such a number of Eagles and their friends going down that they have arranged for a special train on that day to leave Norwich at 9:40 o'clock in the morning, at a round trip fare of 50 cents.

The uniforms for Norwich Aerie have arrived and with them the body from this city are bound to make a most creditable appearance. The complete uniform will include dark clothes, white vests, white hats, white gloves, white spats, black ties, a rose for a button bouquet. The members will carry large American flags.

From 15,000 to 20,000 visitors are expected in New London on the field day from all over the state, while it is expected that Providence Aerie with Reeves American band will attend. Special trains are to be run from practically every city in the state and also from Worcester, Springfield and Providence. Some of the buildings in the Whaling City are already being decorated, three firms of decorators being busily engaged. The Sailors and Soldiers' monument will be trimmed with electric lights.

At the City hall will be located the reviewing stand, where among the guests will be Senators Bulkeley and Brandegee and Congressmen Higgins, Tilson and Hill. The parade will start Thursday morning at 11 o'clock. Fifteen bands and drum corps will be in line. In the evening at Armstrong park there will be a band concert and fireworks.

There will be also much activity among the Eagles on Wednesday. At 2 o'clock on Wednesday afternoon the state executive committee will meet at the Elks' home, on Washington street, for the transaction of important business, and in the afternoon on Wednesday evening the degree teams will compete for the \$200 that goes to the best drilled.

SONS OF VETERANS.

Members of Sedgwick camp, No. 4, are enthusiastically seconding the effort.

Substitute for a Glass Cutter.

Occasionally the man of the house has his wife may have need to cut a sheet of window glass and be without a glass cutter of any kind that will work. An excellent substitute for the work is a pair of heavy scissors or shears that are of no particular value. Submerge the glass in water to a depth of three or four inches and cut the edges as you would a piece of pasteboard. A plate of glass may not be divided in half by this apparatus, as it is supposed the narrow clippings will break away, but unless biting too deep in the main sheet that is to be preserved the weight of the water acts to prevent shattering, as otherwise would be effected.—Chicago Tribune.

Novel Convalescent's Sanitarium.

General Davis, at the meeting of the Pershore rural council this week, put forward a novel and ingenious idea for a convalescent's sanitarium. It was that some shepherds' huts—which are fitted with wheels, and can be moved from place to place—should be provided, and a committee was appointed to consider the suggestion. Given a nicely situated enclosure attractively laid out for open-air treatment, and an adequate supply of shepherds' huts, there is at least a rough and ready sanitarium for the treatment of convalescent patients, and an economical one. Possibly it would be quite as efficacious as more ambitious and costly schemes.—Birmingham (Eng.) Post.

An Important Explanation.

Let it be understood that John W. Kern made this statement: "I am surprised at nothing, before the Grand Island convention was held, Omaha, Neb."

forts of Special Aide Hale from Hartford in the canvas for a class of 100 in September. Their combined endeavors have already resulted in the securing of over thirty applications, so that the prospects for the success of the plan of increasing the membership appear excellent.

WOMAN'S RELIEF CORPS.

Sedgwick Woman's Relief corps, No. 16, held its regular meeting Friday afternoon at Buckingham Memorial with the president, Mrs. Eva W. Caulkins, in the chair. Mrs. Jane Anella-Stanton, the delegate to the recent meeting of the board of the Cromwell Relief corps home in Hartford, read her report, and the paper was listened to with much interest. The ladies of the corps are to furnish the dinner on Thursday for the reunion of the Eighteenth regiment at Buckingham Memorial.

ROYAL ARCANUM.

The regular meeting of Norwich council, No. 720, in Buckingham Memorial on Tuesday evening was an especially interesting session, as Orator F. J. CHENEY & CO., Toledo, O., a programme that required everyone present to sing a song, speak a piece or tell a story. Each member did his part faithfully and the result was a most enjoyable evening.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold everywhere.

Take Hall's Family Pills for constipation.

They Have a Definite Purpose.

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so-called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." Lee & Osgood Co.

Important Improvements in 1911

INCREASED POWER.

Cylinder bore increased from 4 1/2 inches to 4 3/4 inches. This, with more efficient carburetor (Special Schebler) which is water-jacketed, effects a material increase in power. Piston stroke, 4 1/2 inches.

INCREASED COMFORT.

Wheel base increased from 110 to 116 inches, making the car ride more easily than ever.

IMPROVED APPEARANCE.

Double drop frame, 2 1/2 inch drop, which makes car set lower, and this with the larger hood and more roomy tonneau greatly improves the appearance.

LARGE RADIATOR.

The radiator is larger, hence has greater cooling capacity. This is notwithstanding the fact that the Cadillac was never deficient in that respect.

TIMKEN AXLE.

Full floating type Timken roller bearing rear axle. This is the same axle as used on a number of America's highest priced cars.

LARGER BRAKE DRUMS.

Larger brake drums, giving greatly increased efficiency. Contracting and expanding double acting brakes, both equalized.

TWO IGNITION SYSTEMS.

Two complete and independent ignition systems, each with its own set of spark plugs. The two ignition systems consist of Bosch high tension magneto and the new and improved Delco system with single unit coil, high tension distributor and controlling relay. Either system alone is efficient for operating the car.

ENCLOSED WIRING.

All electrical wiring enclosed in copper tubes.

COPPER MANIFOLDS.

Copper manifolds are used for water inlets and outlets in the circulating system.

LUBRICATION.

Automatic splash, Cadillac exclusive system.

TRANSMISSION.

Three speed selective type sliding gear.

DRIVE.

Direct shaft with two universal joints running in oil bath.

TIRES.

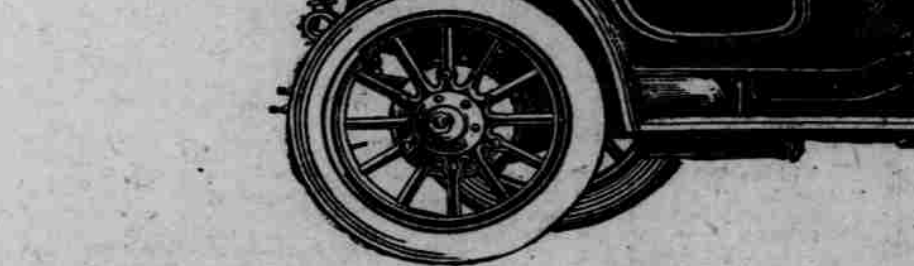

34x4 inches.

SPRINGS.

Semi-elliptic front, three-quarter platform rear.

REMOVABLE CLUTCH.

Clutch may be removed in a very few minutes without disturbing other members.

Price \$1700 F. O. B. Detroit
Touring Car, Demi-Tonneau and Roadster
(Coach \$2250, Limousine \$3800)

This Wonderful New Cadillac was not possible 12 months ago

The A. C. SWAN CO., AGENTS FOR New London and Windham Counties

Our conviction is that this larger, more modern, more powerful and more scientific machine which the manufacturer of motor cars has yet developed.

Manufacturing plants are strangely like men—still more strangely like the men who operate them. Abraham Lincoln, just elected to congress, could not understand why the Abraham Lincoln of later years.

He had to grow to greatness through the painful and wearisome pursuit of a principle.

This new Cadillac for 1911 is not a mere inanimate piece of steel and wood and iron.

It is the embodiment and the expression of a manufacturing principle to which the Cadillac Company committed itself more than ten years ago.

The Cadillac principle, faithfully followed all these years, is this—That any one of ten thousand or more Cadillacs should be interchangeable in its parts with any other Cadillac of the same type.

Cadillac interchangeability insures, in turn, absolute uniformity of treatment. It reduces friction to an infinitesimal minimum, augmenting every particle of power generated by the engine.

This principle implies a very large production with its consequent economy.

But it also implies a painstaking expenditure which must be reflected in every hour of every working day in the year by every branch of a highly skilled organization.

We know that this car could not have been evolved except by the long and arduous process which has been pursued in the Cadillac plant for the past ten years.

And this is not all. It is accorded in scientific standardization until it is excelled by a manufacturing organization which has established and carried out this Cadillac experience.

For the ensuing twelve months, as for the past twelve, the Cadillac capacity of the Cadillac plant will be taxed to satisfy the normal Cadillac demand. Please co-operate with your Cadillac representative by the earliest possible inspection.
